Minutes

Agenda item:	Current Progress	Presenter:	Ife
---------------------	------------------	-------------------	-----

Discussion:

Problems with styling and routing, as well as logo.js not working properly. Ife will look into these issues in the meantime and will send out more wireframes for next week. Hopefully by end of November we will be done with React and design and can begin to work on backend components. Keep working and improving current components in the meantime. Next meeting will be the 19th of November.

Conclusions:

Every team should push changes so far to the main AGMEETING branch, more wireframes will be sent out soon.
