

AGMeeting

Date: 3/4/2022

Time: 2:15 pm 2:42pm

Google Meets

Meeting called by:	AGMeeting	Type of meeting:	Client Meeting
Facilitator:	Ife	Note taker:	Chester Ng
Timekeeper:	Chester Ng		
Attendees:	Team1, Team2, Team3, Ife		

Minutes

Agenda item:	Updates on Progress	Presenter:	Ife
---------------------	---------------------	-------------------	-----

Discussion:

Questions of progress for each of the team's projects. Each team went through their code and showed it to Ife. Ife had concerns on what would happen if multiple users using the same UID were to log in simultaneously. Next step is working on role-based log in. Different tables per role on the backend side instead of having everything in one table. Ife has created a rough demo of different roles that he will push to GitHub later. Ife suggests that the pace can be picked up, each feature should only take a week or so.

Conclusions:

Review demo code from Ife on role-based log-in.

Action items	Person responsible	Deadline
✓ Review demo code	Team	3/11/2022
✓ Push our project code for Ife to review	Team	3/4/2022
✓ Enter action items here	Enter person responsible here	Enter deadline here
