Discussion:

Main thing for us to do is building actual components and installing the theme including connect react component routes and wrap it around material-ui theme. The client wants us to focus on frontend for now such as the landing page, sidebar, agenda tab, session tab and if possible, the transition between pages afterwards. Work on user stories (user perspective third person what the user is actually doing on AGMeeting, from landing page to login page to dashboard, build scenarios etc). Ife mentioned that he will get back to us on the MDP.

Conclusions:

Wireframe will be sent out to us later, as well as the material-ui. Finish user stories and epics by next week, as well as install the theme. If not doable Ife will send out solutions.

Action items	Person responsible	Deadline
✓ Finish User Stories and Epics	Full Team	Oct 18/19, 2021
✓ Install Material-UI	Carson Ricca	Oct 18/19, 2021
