Blockers + Surprises

- Ife stated in the last client meeting that he would send us his code for Passport.js for us to review. This was supposed to be sent to us by Tuesday the 15th, but was never delivered nor have we heard from him. Our team is confused on how to progress as we are unfamiliar with Passport.js and we have no additional direction from the client.

2. Plan

Tasks for this week:

- Plan for Peer Testing Milestone Tasks
- Tried to work on some UI in preparation of connecting APIs

Goals for the next milestone:

- Meeting with the client on Friday, February 18th to see what's next
