AGMeeting

Meeting called by:	AGMeeting	**Type of meeting:**	Client Meeting
Facilitator:	Ife	**Note taker:**	Chester Ng
Timekeeper:	Chester Ng		

Attendees: Ife, Team 1, Team 2, Team 0

Minutes

Agenda item:	Upcoming Semester	**Presenter:**	Ife

Discussion:

We will be starting with backend this semester. Ife expects the app to be finished next couple months. They had issues with funding and that was the reason for JIRA expiring. Hoping that JIRA can be used again but the client had concerned that things were not up to date across the board. Talk to prof about a format or outline to provide Ife in terms of what to expect. They want a database at the very least. Ife will make a list of functionalities required per page. Review their implementation of socket.io and also JIRA.

Conclusions:

Database structure takes priority. Discuss with professor on creating an outline to send to Ife so he can better deliver what they expect from the teams.

Action items	Person responsible	Deadline
✓ Review and rework existing code	Team	1/28/2022
✓ Create database schema	Team	1/28/2022
✓ Discuss with professor on template to send to Ife	Team	1/28/2022
